Excursiones

Día completo a Londres y a Cambridge, y Oxford por la tarde.

Programa "Future Leaders"

The Future Leaders course is designed to help students develop core skills that will enable them to be more innovative and creative.

This isn't an English course but is conducted in English. It is a programme that is designed to bring the best out of each participant and equip the students with skills that will be useful in the future. These are core skills that are sought by universities and employers, such as critical thinking skills, problem-solving skills, teamworking skills and presentation skills – all within an international context, but with a focus on business related leadership and social entrepreneurship.

This course is run like a conference, with students enjoying an exciting programme of guest speakers and workshops. The programme culminates in a group presentation and prize-giving ceremony.

Future Leaders Entrepreneurship encourages students to explore contemporary skills such as debating, critical thinking, and team work. Students work in groups with a mix of nationalities to build a business plan for a social enterprise that will benefit their community.

Students will learn about how to start a business, considering funding and financing as well as writing a business plan. They will pitch their business to a panel of judges on the final day of the course and the best group will win the prestigious Future Leaders Cup.

The course is delivered in English and students will work with others from all over the world using English to communicate and to deliver the end of course presentation. During the course students will develop their business vocabulary and in doing so also improve their English.

There are two full-day trips and one half-day trip as part of the course to explore inspiring places such as London, Cambridge and Oxford.

Guest speakers

Topics include public speaking and presentation skills. Tom Brookes has been a guest speaker and panel judge on the Future Leaders Entrepreneurship course for a number of years. Tom is a film, public speaking and acting specialist, who has led courses in over a hundred schools for children in the UK and created courses for students from more than 60 countries.
